

Design meets Art

100% handmade in Italy

Disain1971 is an exclusive design brand characterized by a ***distinctive style*** and extensive experience in the artisanal production of furniture accessories.

Each of our creations is more than just a piece of furniture; it is a ***work of art***.

The ***uniqueness*** of every product is certified with a ***progressive archive number***.

Products Maintenance

General Care

Position: If possible, keep objects away from direct sunlight and items that could scratch or damage the surfaces.

Heat Resistance: Lacquered or resin-coated surfaces can tolerate moderate heat sources; be cautious with very hot coffee cups or dishes.

Liquid Resistance: Lacquered or resin-coated surfaces are water and liquid-resistant, but prolonged contact should be avoided. Immediately dry any spills to prevent potential damage.

Surface Cleaning

Daily Cleaning: Wipe with a soft, dry cloth. For deeper cleaning, use a damp cloth with mild soap, followed by a dry cloth.

Spills: Clean immediately to avoid the risk of stains or discoloration.

Avoid: Abrasive or harsh cleaners, and excessive moisture.

Important Tips

Do not use harsh cleaners or disinfectants: Water-based lacquered or resin-coated surfaces do not tolerate aggressive cleaners. Use only mild cleaners suitable for resins and parquet.

Move objects regularly: Avoid leaving vases or other items in the same place for long periods to prevent the risk of stains or discoloration.
